

Dubai Marina

AL SEEF TOWER I

Al Seef Tower is a 43 floor towering residential complex situated in the much admired Dubai Marina development. Views from this complex are spectacular; the panorama includes the desert, world-class golf courses, the Arabian Gulf and the stunning Marina complex itself.

Al Seef offers indoor space like no other apartment complex in Dubai. The architects have placed particular emphasis on clever design and maximizing space to its fullest. The penthouse apartments are larger than villas, and offer a choice of two or three bedrooms. This tower carefully combines excellent design and living space with all the modern amenities and the convenience of living the apartment life.

The third floor boasts a health club, state-of-the-art gym, steam and sauna rooms, and a Jacuzzi. The pool deck has a swimming pool for adults and an additional lap pool for serious swimmers. Other facilities include an aerobics hall, changing rooms, a separate play area and pool for children, a cafeteria and a child care centre.
