

**Dubai Marina**

# BONAIRE, PARK ISLAND

A one of a kind design with exceptional value. From the quietude of the open waters, to the buzz of restaurants and walkways. It is both who you are. And where you want to be.

The towers within Park Island have been placed generously to allow for the inclusion of lush parks and landscaped gardens, giving you the space to live. State of the art technology coupled with designer suite finishes make for the latest in modern living. Add some of the world's most pristine beaches within walking distance and all that Dubai Marina has to offer, and it's not hard to see why Park Island is the perfect lifestyle choice.

The site is located on the Marina waterfront with two parks, one on each side of the project. It is also within walking distance to the beach front and the beach front hotels (e.g. Royal Meridian). There are retail spaces within the complex at the promenade level and on the street side.
