

Dubai Marina

LE REVE

Le Reve is one of the many freehold residential towers currently under construction in the Dubai Marina development; it is situated between Najd Tower and Marina Pinnacle.

Le Reve rises 200 meters high with 46 storeys and comprises of 82 penthouse-class apartments. Each residence within this project has centrally controlled lighting, temperature and multi media, as well as a private terraced area.

Floors four to 39 of Le Reve have two five bedroom luxury presidential apartments, each covering 6, 100 square feet. Floors 40 to 48 house one single deluxe royal apartment on each floor, guaranteeing a very private and tranquil 13, 440 square feet. Floors 49 and 50 are one super deluxe penthouse, with a total of 17, 200 square feet and four private elevators. There are a further three floors allocated for car parking, and staff accommodation.

Amenities at Le Reve include secure private valet parking, temperature controlled rooftop pool with landscaped gardens, gym, health club, children's play area, 24 hour concierge, chauffeur driven limousine service and the option of booking a private jet or top of the range cars. This development is the brain child of WS Atkins and Partners, the same firm behind the design of the prestigious Burj Al Arab hotel.
